

Growing up in Putnam County, NY I (border with Danbury) used to admire the CT economy and efficiency. We used to make fun of Massachusetts calling it "Taxachusetts". Having Lived in CT for the past 24 years it looks like CT has come full cycle and we are choking middle income and retirees with ever more taxes. When will we stop to overburden the average guy? I have grandchildren in CT but seriously considering moving upon retirement. Sad but true! I Love CT but can no longer afford its high taxes.
